Dear Families and Students,

**We will be making our school a phone-free space to improve teaching and learning** using a system called [Yondr](#). Yondr has been implemented in over 2,000 schools across 16 countries to facilitate an engaged learning environment.

We believe that phones have great utility. We have also found that learning and social behavior improve drastically when students are fully engaged with their teachers and classmates.

**The Yondr Program utilizes a simple, secure pouch that stores a phone.** Every student will secure their phone in a personally assigned Yondr pouch when they arrive at school. Students will maintain possession of their phones and will not use them until their pouches are opened at the end of the school day. Students are responsible for their pouch and any damage that may occur while in student possession.

Yondr recently surveyed over 900 school partners to measure the effects of creating phone-free educational environments. These schools achieved notable progress in multiple areas:

- **65% of schools saw an improvement in academic performance**
- **74% of schools saw an improvement in student behavior**
- **83% of schools saw an improvement in student engagement in the classroom**

If you have any questions, please do not hesitate to contact the school directly at **330-452-8414**, or attend one of our upcoming enrollment orientations on July 18 and July 19, 2023 from 11a-1p to learn more about Yondr.

If there is an emergency and you would like to get in contact with your child, please reach out to **Mr. Shawn Kaufman, Dean of Students** at **330-452-8414**.

In an effort to best serve your child, we appreciate your full support in adoption of the Yondr Program at our school.

Thank you,

*Steven A. Nichols*

### How Yondr Works

As students enter school, they place their phone in their assigned Yondr Pouch.

Students close and secure their Pouch, keeping it on them throughout the day.

When leaving school, students tap their Pouch on a Base to retrieve their phone.
